

The Camden

The Camden is a spacious and light filled home and, as Heather Knoll's only end unit model, it is especially private. Breathtaking interior spaces, a second floor overlook, window designs which allow for light filled rooms, are but a few of the dramatic touches found here.

The entry foyer is a reception area in the grandest tradition - two stories high. It leads to a traditional formal dining room on one side. To the other side is an elegant living room with two walls of windows that opens to a dramatic sunken family room. Adjoining the family room is a cozy breakfast room. The living room, the family room

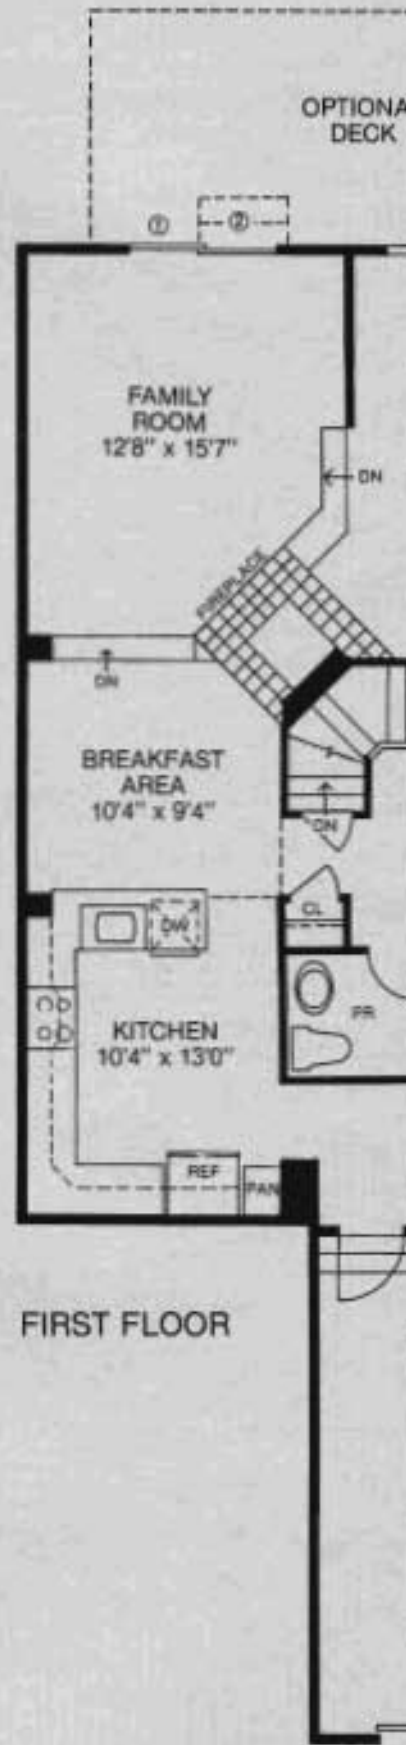

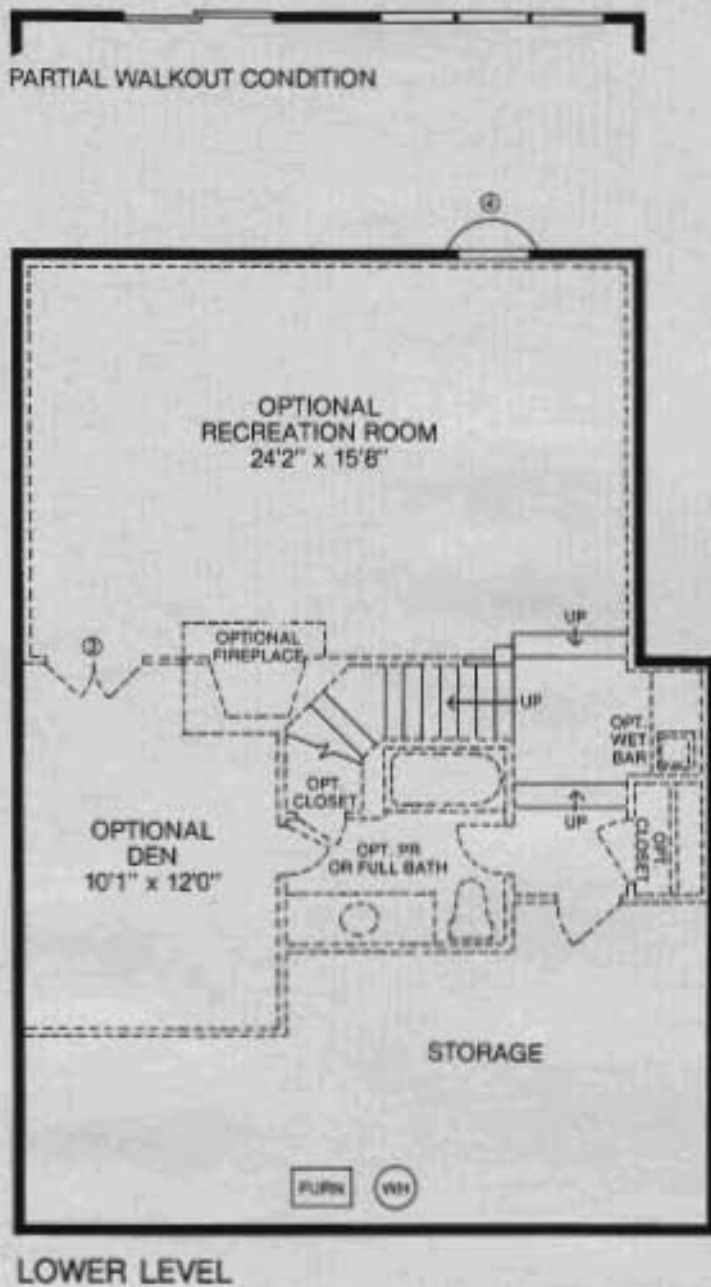

and the breakfast room are all served by a three sided peninsula fireplace that will warm even the coldest winter and make your parties and family get-togethers even more memorable. Between the breakfast room and the dining room is a large, state-of-the-art kitchen with the most up-to-date appliances and appointments. Of course there is a powder room and a convenient main level garage.

The dramatic staircase rises past a spectacular window to the second floor where you will discover the huge master bedroom suite with soaring cathedral ceiling, large walk-in closet and luxurious master bath with garden-style tub,

separate shower and double bowl vanity. There are two more enormous bedrooms - private and filled with light. The second hall bath is equally large with a double bowl vanity. A convenient second floor laundry is included on this floor.

Downstairs, the large lower level gives you space to complete a huge optional recreation room, a powder room or full bath, a fire place, and a wet bar. Plus, there is plenty of storage space.

The Camden, designed to give all the drama and space usually found only in a single family home fully realizes this aim and is sure to be a favorite.

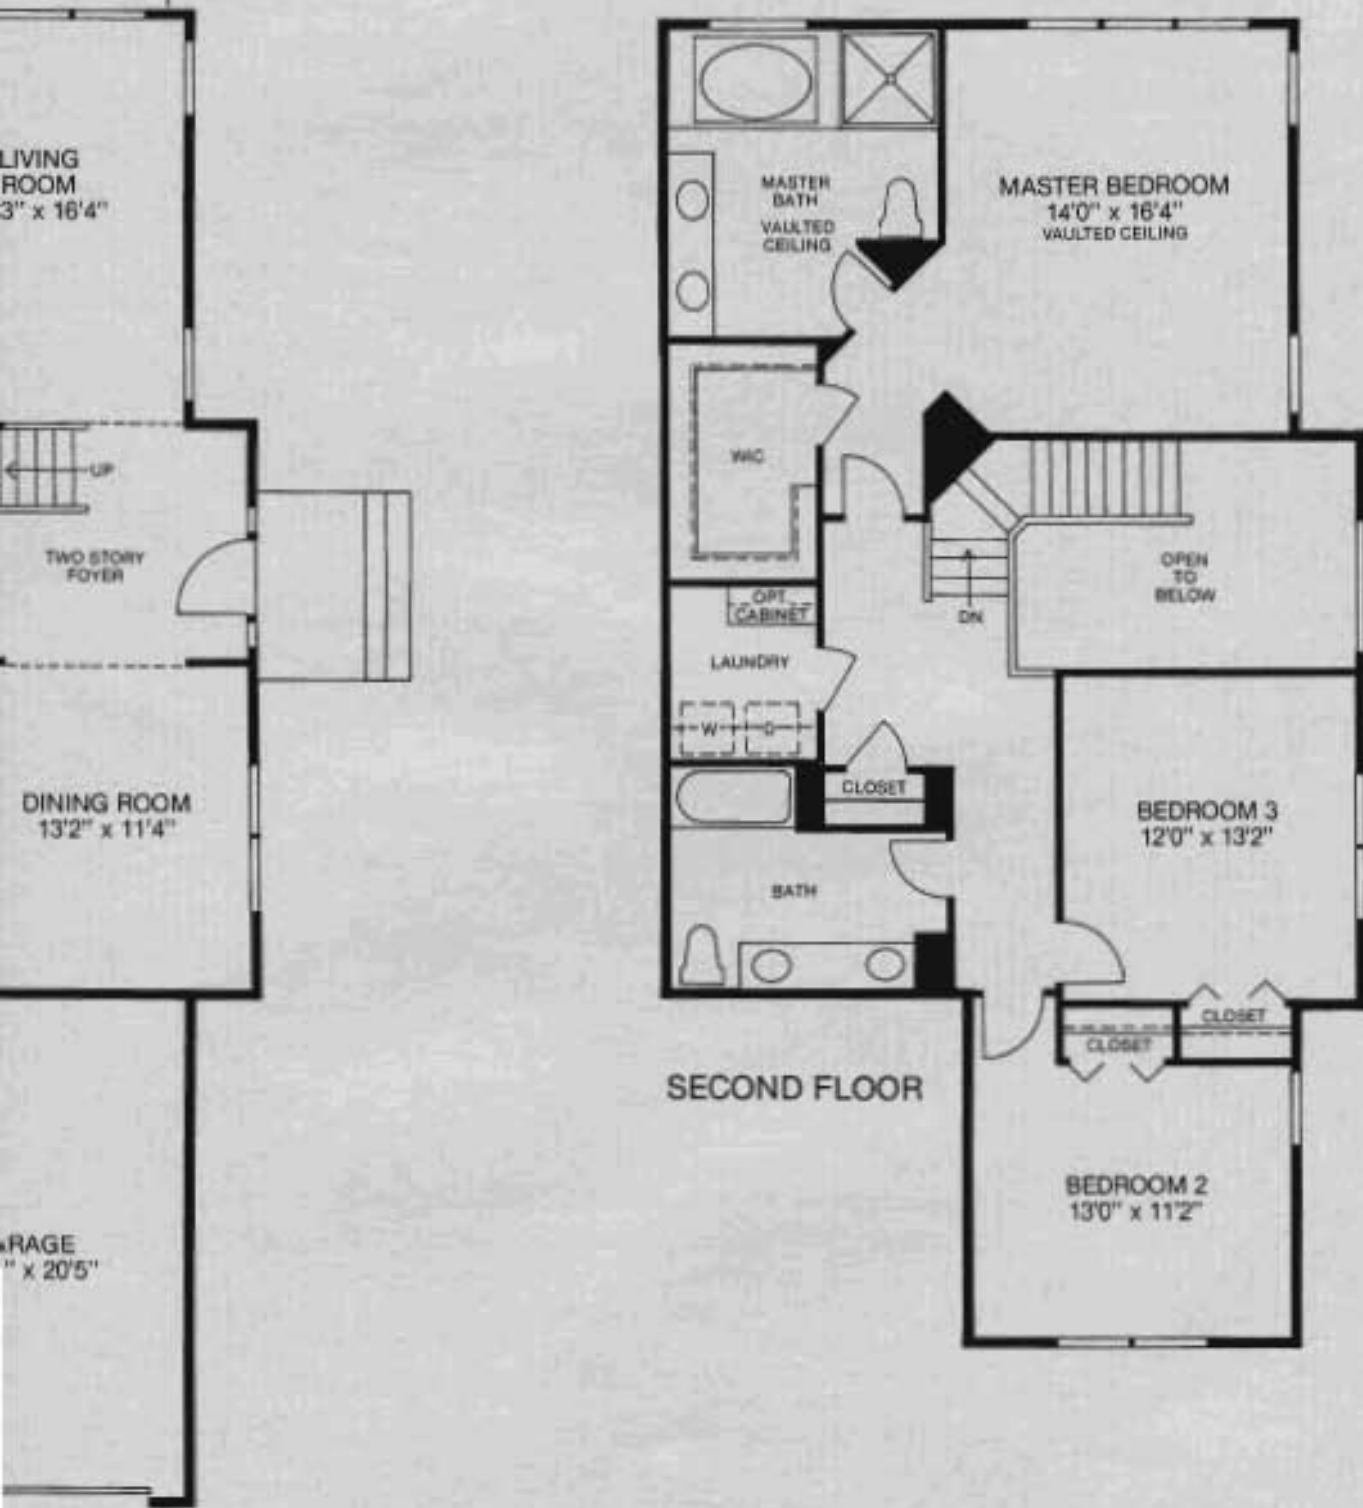

① RAIL HERE WITH WALKOUT HOME UNLESS DECK IS SELECTED.

② STEPS HERE WITH INGROUND BASEMENT. NUMBER OF STEPS DEPENDS ON GRADE.

③ DOUBLE DOORS WITH OPTIONAL DEN ONLY. SINGLE DOOR WITHOUT DEN.

④ WINDOW WELL WITH INGROUND BASEMENT ONLY.
